Explanation of symbols

- * Very light visible marks under specific lighting conditions after intense and heavy use.
- ** Light visible marks under specific lighting conditions after intense and heavy use.
- *** Visible marks after intense and heavy use. Darker and more heavily pigmented colors will show dust, scratches, and other ordinary wear and tear more noticeably than lighter textured colors. Therefore these colors are less suitable for applications that are exposed to extensive surface contact such as kitchen worktops as an example.
- ~ Due to its sensitive coloring, the chosen colors may show slight differences in color caused by the thermoforming.
- ≈ Due to its sensitive coloring, the chosen colors may show larger variations in color caused by the thermoforming
- K** These colors are particularly suitable for use in the kitchen.
- A** These colors are suitable for outdoor use.
- ✱ These colors are ideal for backlighting. Due to their translucency, they are not suitable for all applications. Please discuss this with us.
- ▲ The reflective particles of these colors can vary in intensity and seams can become visible.
- ◻ The irregular, overlapping structures of these colors are different for each panel. Only on larger panels the patterns are clearly visible. The marbling or continuity of streaks will be interrupted when gluing the surface as well as the angled areas (edges, concave portions, etc.). An optical jointlessness cannot be achieved.

Example oversize bonding

Example over-corner bonding

Raw panel size

Thickness	Width	Length	Colors
4 mm	930 mm	2490 mm	Glacier White
6 mm	760 mm	2490 mm	Bisque, Bone, Cameo White, Deep Nocturne, Designer White, Glacier Ice, Glacier White, Vanilla
6 mm	930 mm	2490 mm	Cameo White, Glacier White
6 mm	1300 mm	2490 mm	Bisque, Glacier White
12 mm	760 mm	3658 mm	Standard plate size for all Corian-Colors
12 mm	930 mm	3658 mm	Cameo White, Glacier White
12 mm	1300 mm	3658 mm	Bisque, Cameo White, Designer White, Glacier White
12 mm	1500 mm	3658 mm	Glacier White
19 mm	760 mm	3658 mm	Glacier White

Additional information

Surface finish:

The typical surface of Corian is silk matt. Alternatively a glossy finish is possible.

Exterior application:

Some Corian colors are suitable for exterior use. Please get in touch with us for these special applications.

The print reproduction of the colors may differ slightly from the original color of the patterns. Original samples in size 5x5 cm and 10x10 cm can be ordered from Hasenkopf.

Further information on the individual colors is available at www.hasenkopf.de/en or in the Corian color finder at www.hasenkopf.de/en/corian-colours
