CUSTOM PRODUCTION

Hasenkopf is Craftsmanship. For half a century the company has been manufacturing distinctive and unique products and fulfilling our customers' individual requests, however unusual. Hasenkopf sees itself as a manufacturer because – now more than ever – the word stands for excellent craftsmanship, reliable quality and tailor-made perfection.

SERIES PRODUCTION

Hasenkopf is Industry. With a workforce of around 160, a 15,000 m² production area and the very latest technological facilities even our series products can offer tailor-made perfection. That is why we have Industrial Manufacture in our name, because Hasenkopf's customers can enjoy all the advantages of industrial production, such as fast order processing, efficiency and just-in-time delivery.

BRILLIANT PRODUCTS MADE OF PARAPAN®

Its smooth high-gloss surface and manifold processing options make Parapan not only eminently suitable for conventional furniture fronts and covers but also for unusual shapes and designs. This homogeneous acrylic material is evenly colored right through, does not fade and is available in 20 different colors. Our standard colors are always in stock. Milling, thermal forming and polishing are used to give Parapan surfaces and objects the desired-form – and to bring brilliant long-lasting color in bathrooms, kitchens and other areas. At Hasenkopf we have consolidated all our materials and processing expertise under one roof, greatly simplifying project handling for our customers and partners.

MANIFOLD POSSIBILITIES. ONE STRONG PARTNER.

HASENKOPF'S PRODUCTS ARE AT HOME ALMOST ANYWHERE.

With our advanced processing techniques and versatile expertise in a wide variety of premium materials we offer our customers and partners tailor-made solutions for almost all areas of life and work, coupled with project support from the planning stage through to the implementation.

CORIAN

With our two-dimensional and three-dimensional processing methods we can coax these high-quality minerals into almost any desired form, to create basins, worktops, counters, wall paneling, etc.

WOOD

Since 1964 we have been using wood and wood-based materials to manufacture high-quality ready-to-assembly drawer systems. We also cooperate with partner processing specialists to realize even large-scale products.

ACRYL

Its transparency, colors and design possibilities added to its outstanding processing properties make Acryl an extremely versatile material, for instance, for sophisticated indoor fittings and design.

FRESCATA

Frescata is the name we have given to our program of creatively designed surfaces and coverings in a variety of materials and combinations individually customized with multiple textures and finishes.

AND MORE

In addition to wood, Corian, Parapan and acryl we also offer products and services based on other premium materials, such as gypsum fiberboard. So we have suitable materials for any requirement.

LIFE & LIVING

Table design manufactured in Corian® for Veech Media Architecture (VMA) [Photo: Heiner Heine]

We cooperate with well-know designers to create not only distinctive and impressive one-off objects but also full sets of furnishings and fittings to visibly enhance your quality of life and living.

BATHING & WASHING

"Corian® Designbadewanne Po", Boffi S.p.A., (2003 Lentate sul Seveso, Milan), Design Claudio Silvestrin [Photo: Boffi S.p.A.]

We open up new design possibilities for bathrooms and showers. Our mineral materials guarantee the most hygienic conditions.

COOKING & EATING

Corian® kitchen worktop for ALNO [Photo: ALNO]

For kitchens – the core environment of our lives – we create both functional and beautiful solutions.

STORING & ORDERING

MDF drawers with curved fronts for Frauenbrunnen, Switzerland [Photo: Frauenbrunnen]

With individually designed furnishings and our proven high-quality drawer solutions we provide for elegant order and practical living.

WORKING & REPRESENTING

Ceiling lights and furniture made of Corian® and wood on behalf of Stonner IP for Münchener Rück [Photo: Stonner IP]

For offices and other working environments we offer suitable and practical furnishings and designs.

HEALING & CARING

Medical worktops made of Corian® for Karl Baisch [Photo: Karl Baisch GmbH]

For healthcare institutions we create environments that promise comfort and hygiene as well as being pleasant to use and easy to clean.

HOSTING & RECEPTIONS

Counter installation made of Corian® and wood on behalf of Riedl / Team Concept for BMW Welt Munich

We facilitate attractive and functional furnishing solutions for caterers and hoteliers, who are happy to see our products among their permanent residents.

PRESENTATION & SELLING

Parapan® counter and paneling on behalf of Cole joinery and CD UK for Dior [Photo: Evonik Degussa]

With our attractive furnishings and versatile designs we can help to create retail premises and fair exhibits to achieve the very best in means of presenting a company's products and services.

LIGHTING & HIGHLIGHTING

"Corian® Nouvel lumieres" (2007 Milan week of design), design Jean Nouvel, Foto Leo Torri image courtesy of DuPont™ Corian® (all rights reserved on design and photo)

Some of our materials are translucent and therefore eminently suitable for impressive lighting installations. Elegant surface finishes also offer numerous attractive possibilities.

OUR OFFER FOR YOUR SUCCESS.

CREATE MORE VALUE TOGETHER

Our customers in trade and industry, design and architecture value us as a reliable and competent partner for any type of challenge. With our experience and knowledge of the very latest cutting, forming and molding techniques to supplement your own areas of competence, you can satisfy the requirements of sophisticated tendering projects and win orders for your company. As part of a value-add chain that benefits all its participants we can reinforce your capacity and help you to implement your projects successfully. See for yourself how effective it can be.
